

Helping Catholic Schools simplify classroom resources

What is ReadCloud?

ReadCloud enables educators and students to access all their classroom resources in one place. Digital and remote learning is simplified and accessing content is easier than ever.

Save time for teachers and reduce the burden on admin staff to organise access to textbooks and digital resources.

"It completely removes the stress of having to manage access codes for distribution and logging in."

Content

We help Catholic schools access all in-classroom content, including eBooks, interactive resources, digital subscriptions and their own material.

Synchronised

Content is activated and setup into virtual classrooms that match your physical classes, so that teachers and students have what they need.

Access

Use ReadCloud on any device, including iOS, Android, MacOS and Windows, with Secure Single On (SSO) or from inside your LMS natively - just tap to launch.

Personalised

Give teachers pedagogical tools to boost engagement using annotations and the ability to collaborate and have conversations inside the content itself.
