IT Managers have a partner who works with their environment

![readcloud]

What is ReadCloud?

ReadCloud enables educators and students to access all their classroom resources in one place. Digital and remote learning is simplified and accessing content is easier than ever.

Make it easy for staff and students to securely access the content they need for teaching and learning

"They can login on any platform, any time, any place. This is tremendously important also for the IT department in terms of efficiency and supporting the students.

Director of Digital

Cross Platform

Staff and students can access ReadCloud natively or via our web app across all platforms, including their BYOD or school owned devices.

Automated

With our timetable integrations, content is synchronised for users by their classes, automatically updating whenever the timetable changes.

Secure

Student data is protected with world leading encryption and hosted locally, so that you have peace of mind and data is kept safe.

Single Sign On

Staff and students login with their school credentials using Single Sign On through Microsoft or Google, for safe and secure access
