Getting Started

This factsheet walks you through your first steps with ReadCloud - including downloading the native app for your device, setting up your proxy settings within the EQ network and logging in via Microsoft O365.

1. Download ReadCloud

Choose the device you are using and follow the prompts to install the app on your device.

You can also find links to our apps on **readcloud.com/downloads**.

2. Login to ReadCloud

Enter your school email address (e.g. jsmit34@eq.edu.au) and click **Next**.
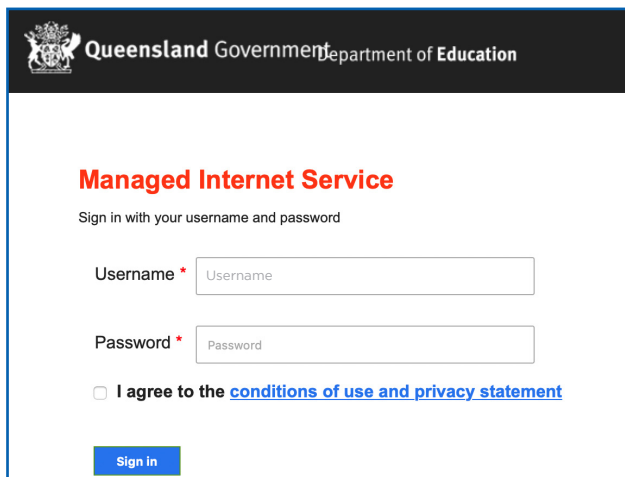

Click the **Login with Office 365** button.

3. Sign in to the EQ Managed Internet Service

Username: MIS ID
Password: MIS password

Agree to the T&Cs and press **Sign in**

4. Setting Proxy Credentials (Windows only)

A green popup will appear. Log in again with your MIS ID e.g. jsmit36 and enter your MIS password.

This box will re-appear each time you update your MIS credentials.

ReadCloud Default Password

If Office 365 is not available use ReadCloud's default password - provided at your school.
