Introduction

The following guide details installation of the ReadCloud Learning Tool Integration (LTI) for Schoolbox, consisting of two easy steps: installing ReadCloud as a plugin, and then adding that plugin to a specific class.

This ReadCloud integration enables students and teachers to access and read their ReadCloud content library directly within Schoolbox, or launch specific content in the ReadCloud app - all without additional logins.

Before you begin

To install ReadCloud within Schoolbox you will need:

- A login to Schoolbox with teacher or administrator access
- A ReadCloud LTI Consumer Key
- A ReadCloud LTI Consumer Secret

Please contact ReadCloud support at <u>contact@</u> <u>readcloud.com</u> to obtain LTI keys if you have not received them.

Installation Steps

Firstly, install ReadCloud as a Learning Tool within Schoolbox.

- Login to Schoolbox as a user with administrator access.
- Navigate to the Administration area of Schoolbox. You can do this by clicking on 'Administration' under your profile icon.
