Partnered with ASPA

2020
Partnered with TPA

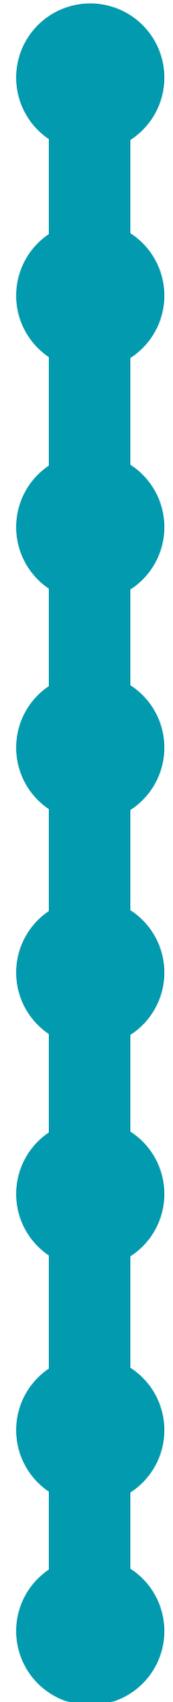

2020
AFR Fast 100 awarded

2020
Acquired COSAMP

2021
Acquired Ripponlea
Institute

**Over 500
schools and
110,000 students
use ReadCloud**

We know that teaching and learning can be frustrating

Too much content

There are too many classroom resources, content and publishers and platforms to choose from in different places

Organising it all is a headache

Managing student access, codes and licenses is a mess at the start and throughout the year

Classrooms are more complex

Starting class on time and maintaining engagement while differentiating learning is a challenge

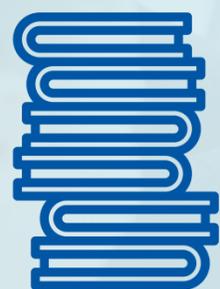

So we're making it easier for teachers

Make teaching and learning less complex by accessing all of your classroom content in one location in the way that suits you.

It just works.

Letting teachers do what they do best.

Content

All your classroom content in one location

Collaboration

Collaborate with students and personalise the learning

We're helping schools around Australia

Methodist Ladies College WA

"There should be a simpler way for teachers and students to access different online platforms ... in terms of my role as being a Director of Innovation, I think that that's an amazing direction for a company to take."

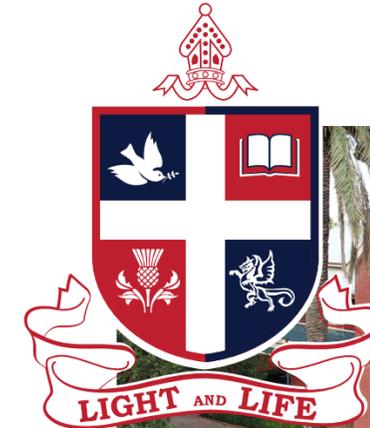

Director of Innovation

Cairns State High School QLD

"Provision of digital textbooks from a range of publishers from one platform and the management of licensing was a key consideration in deciding to use ReadCloud for the provision of digital textbooks"

Head of eLearning

Calrossy Anglican School NSW

"It assisted in maintaining focus as students were not navigating to various websites for publisher content. Students' texts were readily accessible and for the teacher, the text was specific to the Class Cloud, so always starting a class where the last left off."

Teacher-Librarian

Trial it at your school

The best way to evaluate a tool is to experience real world results. Enjoy full use of the ReadCloud platform for your educators and students.

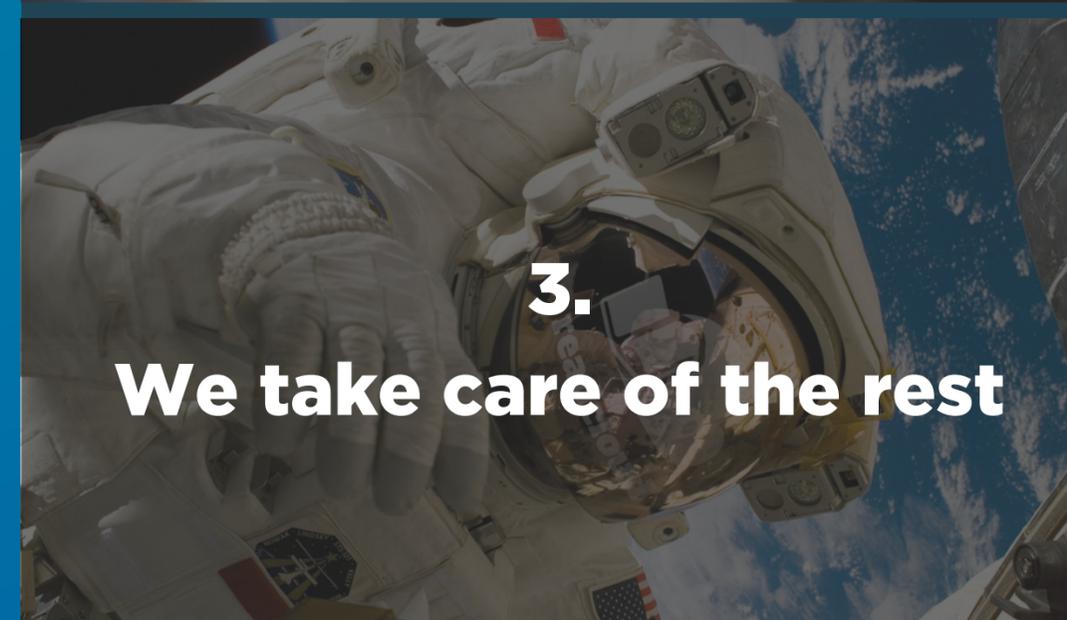

1.

Send us your timetable

2.

Choose your content

3.

We take care of the rest
