

Let's make it **easy** for teachers to teach

What is ReadCloud?

ReadCloud enables educators and students to access all their classroom resources in one place, synced to school timetables and sorted into virtual classrooms known as Class Clouds that match your physical classrooms.

All your class materials are at your fingertips and accessible from anywhere at anytime.

Content

Access all your eBooks, eNovels and digital resources in a single set of cross-platform native apps, so you can focus on what matters most

Collaborate

Enhance learning through collaboration and differentiation with the ability to annotate, markup and comment inside your content.

Curate

Upload and share custom and additional content with your students and classes in just a few clicks.

“

ReadCloud assisted in maintaining focus as students were not navigating to various websites for publisher content.

Teacher-Librarian

”

Single Sign-On

Students and educators can access ReadCloud natively across all platforms, all with a single login from their existing school credentials.

Seamless access

Integrate ReadCloud with your LMS, timetable and collaboration tools to streamline access to classroom resources.

Training and support

Access local support and PD via our in-servicing program, helping to you to access your content so you can focus on what matters most.

FAQs

Which apps do you support?

ReadCloud has native applications for iOS, Android, Windows and MacOS, as well as a web app, enabling online and offline access to content.

Do you activate publisher content?

We will audit and activate any existing codes, both standalone digital and those in print textbooks, as well as provision any additional content you might need for each student and teacher .

Can you provide print textbooks?

We work with many schools to establish a blended model of resources. Using our partnerships with world-class publishers, we can organise both digital resources, and print textbooks complete with covering and binding, delivered to your school.

How do you secure student data?

All your data is stored locally in Australia, and student data can be obfuscated for privacy. You'll never need to worry about copyright again, as access is protected by proprietary encryption with world-class secure DRM.

All eBooks and Digital Resources, in one place.

Visit readcloud.com and book in a demo today to learn more about the leading platform for classroom content.
